

## PRODUCT IDENTIFICATION

PRODUCT NAME: **Remedy** (Advanced Emergency Spill Solution)

PRODUCT CODE: 22005

## GENERAL DESCRIPTION

Remedy Emergency Spill Solution is an advanced, natural, and completely safe non-toxic formula of selected microbes that digest organic contaminants on the ground surface and in soils. These communities of microbes can effectively convert harmful hydrocarbons, oils, and greases into non-toxic compounds.

When applied to a hydrocarbon spill, microbes and enzymes accelerate natural microbial activity that drastically cut clean-up timeframes. Remedy will suppress harmful organic vapors creating a safe working environment for spill responders by eliminating flammability.

## TYPICAL PROPERTIES

- Color - Light Brown
- pH, 1% Solution - 7
- Specific Gravity - 1.02
- Odor - Distinctive

## INSTRUCTIONS

### SMALL SPILLS ON FLOOR OR CONCRETE OR GRAVEL SURFACE:

1) Dilute ½ gallon of Remedy with 1 ½ gallons of water in a 2 gallon sprayer. Spray 6-8 inches from the surface to be cleaned. Remedy is not corrosive.

2) Allow foam to penetrate the spill.

### FOR SPILLS ON SOILS:

1) Dilute with water to a 5% mixture (one gallon of Remedy with 100 gallons of water) before applying. Apply the diluted solution with a spray or pour delivery system and mix well into the spill or contaminated soil.

Note: Generally, one gallon diluted will treat approximately 10 cubic yards of soil.
