

PRODUCT IDENTIFICATION

PRODUCT NAME: **Tool Wash** (Biodegradable Cleaning Solution)

GENERAL DESCRIPTION

Tool Wash is a special blend of selected non-ionic wetting agents and synthetic surfactants designed for general cleaning. This heavy-duty yet biodegradable liquid detergent can dissolve and emulsify heavy grease and oil residue, making it the best ways to clean your tools.

Tool Wash isn't limited to just cleaning tools. Use this gentle yet powerful product to remove oil mud residue, grease, and industrial oils on many types of surfaces, including metal, and both unpainted and painted hard surfaces.

TYPICAL PROPERTIES

- Color - Clear Blue
- pH, 1% Solution - 9.5
- Specific Gravity - 1.025
- Odor - Slight Alcohol

INSTRUCTIONS

DIRECTIONS FOR CLEANING OIL AND MUD

Dilute Tool Wash (1:10) with water for oil mud cleanup and general-purpose cleaning.

Note: Use full strength to remove heavy oil and grease deposits.
